From the Editor

Hey Visionary,

As I write this, I am emerging from a sacred season of rest, reflection, and recovery. In January, I underwent ileostomy surgery—an experience that demanded I slow all the way down, listen to my body, and reimagine what healing could look like when paired with purpose.

Q1 wasn't about pushing. It was about planning. It was about resetting my systems, renewing my energy, and reminding myself that softness and strategy coexist. And now, as we step into Q2, I'm doing so with fresh eyes, more precise boundaries, and an even deeper commitment to building in alignment.

That's what this edition—Reset & Rise—is all about. Whether you're navigating a personal transition or craving a slower, more intentional way to grow your income and impact, I hope this issue meets you exactly where you are. Inside, you'll find affirmations, tools, and community-centred support to help you reset your mindset, recommit to your vision, and rise—one soft but powerful step at a time.

I'm so grateful to be walking this journey with you. Here's to Q2 being gentle, grounded, and full of growth.

With love & vision,

Visionary
Editor-in-Chief

The AI Creators Command Centre

In the fast-paced world of AI-powered creativity, it's easy to feel like your business is moving faster than your systems can keep up. From generating art and digital products to managing Etsy stores, finances, email campaigns, and content planning—most AI creators wear every hat in their business. Sound familiar?

That's exactly why I built The AI Creator's Command Center—a Notion-based business hub created specifically for digital entrepreneurs and AI creators who need to turn beautiful chaos into a focused and scalable system.

✨ What Is the AI Creator's Command Center?

It's not just a template. It's a complete operating system for your AI-driven business. Designed inside Notion, this workspace helps you organize, automate, and optimize everything from idea capture to product launch—all with clarity and ease.

Think of it as your digital command center:

- ✓ Products organized across multiple stores.
- ✓ AI-generated art cataloged and trackable.
- ✓ Finances calculated automatically.
- ✓ Content and marketing aligned and repurposed.
- ✓ Recurring tasks managed with one click.

This system is like giving your business a COO—except it lives inside your Notion dashboard.

🔧 What's Inside the Command Center?

Here's a glimpse at what you'll find:

- 📦 **Product & Store Management:** Easily track listings across Etsy, Gumroad, Payhip, TikTok Shop, and more.
- 🎨 **AI Art Gallery:** Organize your collections, mini-sets, and individual art pieces—all with store links, pricing, and descriptions.
- 📊 **Finances & Revenue Tracking:** Monitor profit and expenses in real-time without spreadsheets.
- 📧 **Marketing & Email Strategy:** Plan campaigns, blogs, and newsletters while tracking what's been repurposed.
- 📖 **Prompt & Resource Library:** Keep your best prompts, guides, and tools in one place for easy reuse.
- 🔄 **Automations:** Set up recurring task buttons, habit trackers, and auto-filled dates to save time and stay consistent.

☀️ For the Visionaries

I built this with people like you in mind:

- The AI artist selling collections and wondering which pieces are live.
- The solopreneur running multiple stores but losing track of what's where.
- The content creator writing powerful posts and emails but not reusing them effectively.
- The visionary who knows they're building something big and just needs the right foundation to support it.

☀️ Ready to Step Into Command?

You can grab The AI Creator's Command Center as a standalone Notion template, or pair it with my upcoming 1:1 setup service for deeper customization.

✨ It's time to get out of survival mode and into CEO energy.

✨ Let your systems carry the weight, so your creativity can soar.

A digital illustration styled as a luxurious oil painting, inspired by soft productivity and the theme of 'Rest and Reset'. It features a confident African American woman with long wavy hair loosely tied in a low ponytail with soft bangs framing her serene face. She is seated cross-legged on a plush cushion, wearing a cozy neutral-toned lounge set with a soft oversized cardigan and leggings. Her accessories are minimal: small hoop earrings, a silk headwrap, and a dainty necklace. Around her are calming elements like a cup of tea, a glowing candle, a leafy plant, and an open journal. Her makeup is soft and natural with a light gloss and gentle eyeliner. The mood is tranquil, with sun-kissed lighting and warm textures. The background is clean and minimal, evoking peace and soft productivity.

Healing Taught Me How to Hustle Less

Before my ileostomy surgery, I streamed nearly every day teaching people how to create prompt guides, eBooks, and AI tools. It was fun and fulfilling until I found myself catching up late at night, missing moments with my kids, and silently running on empty.

My healing season reminded me that **alignment is the true strategy.**

Now, I've returned with boundaries, better systems, and a new rhythm that lets me serve and rest.

LOOK AROUND AND INTRODUCE YOURSELF

A digital illustration styled as a luxurious oil painting, featuring a confident African American urban woman with long, flowing wavy hair cascading down her back and bold bangs framing her face. She is seated on a stool with one leg crossed over the other, wearing a black off-the-shoulder sweater, loose rolled-up denim jeans, and black stilettos. Her accessories include bold hoop earrings, layered necklaces, stacked bracelets, and rings. She has neatly trimmed, shorter black-painted nails. Both hands rest naturally and fully relaxed, conveying an elegant and poised demeanor. Her dramatic makeup features winged eyeliner and full, glossy lips in a playful expression. The image has a luxe, polished feel, with rich textures and a minimal white background that emphasizes her bold and radiant presence.

Step 1: Niche Clarity

 Purpose: Define your skills, audience, and offer

"Hey ChatGPT! I'm good at [insert your skills/interests]. I want to help [describe your ideal audience] by offering [type of solution]. What niche does this fit into? Can you help me map a beginner roadmap?"

 *Pro Tip:* Ask for a one-sentence niche statement you can use in your bio or Beacons page.

Step 2: Branding Essentials

 Purpose: Build your brand identity

"ChatGPT, act as a brand stylist. Help me name my business and suggest 3 brand vibes (with a color palette + fonts) that match my niche and energy. I want something that feels [describe vibe: soft, bold, healing, playful, etc.]."

 *Pro Tip:* Ask ChatGPT for a Midjourney or Ideogram logo prompt too!

Step 3: Lead Magnet Ideas

 Purpose: Create your first freebie

"ChatGPT, give me 3 lead magnet ideas I can create in Canva or Google Docs for an audience that struggles with [insert main pain point]. Each idea should be actionable, useful, and beginner-friendly."

 *Pro Tip:* Once you pick one, ask GPT to outline it section by section!

Step 4: Welcome Email Sequence

 Purpose: Nurture new subscribers

"Can you write a 3-part welcome email series for people who downloaded my [insert lead magnet]? Include: a welcome message, a story about why I do this, and a soft intro to my future offers."

 *Pro Tip:* Ask for subject lines with emojis and preview text suggestions!

Step 5: Product Brainstorm

 Purpose: Create a low-lift first offer

"Based on my [insert freebie], what kind of digital product would solve the next big problem for my audience? Give me a few ideas that are easy to make in Canva or Gamma."

 *Pro Tip:* You can follow up with "Which idea would sell best based on current trends?"

Step 6: Pricing + Promo Plan

 Purpose: Launch with strategy

"Here's a digital product I created: [insert description or upload a summary]. Suggest a good price, write an SEO-rich product description, and outline a 7-day launch plan using Instagram or Pinterest."

 *Pro Tip:* Ask for 3 hooks and captions to post during launch week!

Step 7: Content Plan to Drive Traffic

 Purpose: Get eyes on your work

"My audience is [describe your target group]. I want a week of social media content to drive traffic to my freebie and grow my email list. Can you give me a 7-day content calendar with post ideas?"

 *Pro Tip:* Add "in carousel format" or "for TikTok using CapCut templates" for platform-specific ideas.

Step 8: Analytics Reflection

 Purpose: Refine your process

"Can you help me reflect on my first launch? Here are my numbers: [insert email opens, product views, downloads, etc.]. What worked, what didn't, and what should I try next?"

 *Pro Tip:* Ask GPT to help you set 3 data-based goals for your next launch.

The Rise of the Soft-Earning Creative

SHE DIDN'T GO VIRAL.
SHE DIDN'T GRIND 10 HOURS A DAY.
SHE DIDN'T CHASE TRENDS, BUILD A FUNNEL, OR BEG
PEOPLE TO BUY.
SHE RESTED.
SHE RESET.
AND THEN, THE MONEY CAME.

There's a new kind of creative emerging right now—one who leads with intention, creates from alignment, and builds her income around who she is, not what she thinks she's supposed to be.

She's the one who lights candles before she opens Canva.

Who scripts her sales content with affirmations playing in the background.

Who doesn't just want to sell—she wants to serve, heal, and expand.

And yet... she still wants to be paid.

That's where soft productivity enters.

Not lazy. Not passive. Not “doing less” in the shallow sense.

We're talking about systems that honor your energy.

About methods that don't demand your presence 24/7.

Tools that let you rest without guilt—because the work is still working.

She found one of those tools in something called

The Overnight Pay Method—a \$5 digital product

The guide doesn't just teach you how to earn money in your sleep... it redefines what receiving can be.

It's for the ones who:

- 🌀 Don't want to hustle but do want results
- 🌀 Crave aligned automation, not toxic productivity
- 🌀 Are building digital empires through Canva, AI art, coaching, healing, and creativity
- 🌀 Believe that rest isn't optional—it's sacred strategy

She didn't blow up her brand overnight.

She just stopped waiting for perfect conditions... and started trusting the ease.

✨ That's the new success blueprint.

And it starts with this truth:

You don't need to do more. You need to allow more.

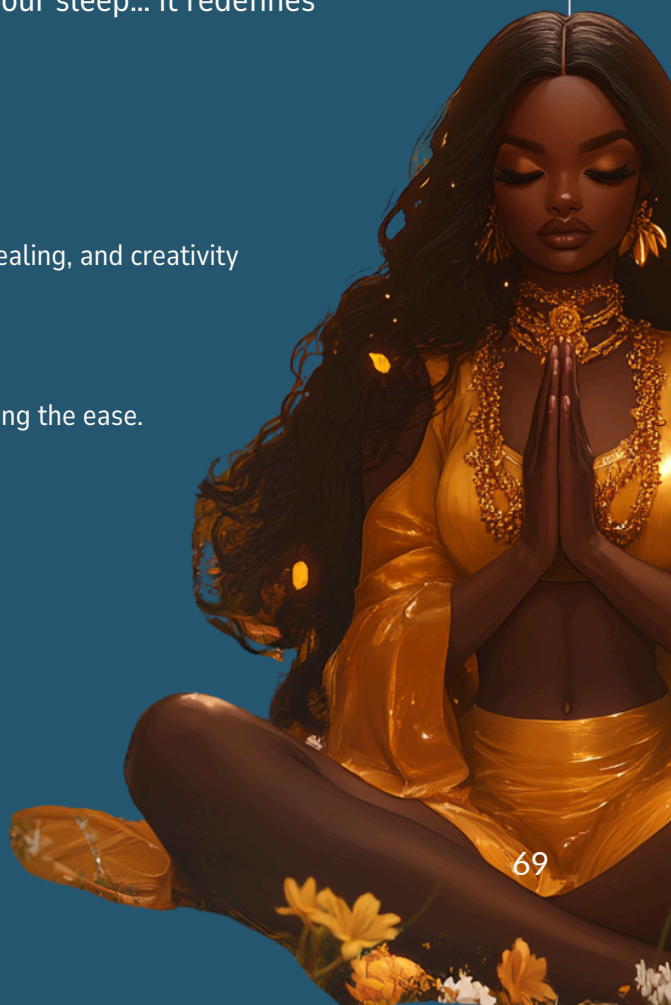

Her story isn't a miracle.

It's a method.

And now—it's yours too.

Reset & Rise: A Personal Spotlight

 by Charlene Grant

When Rest Becomes the Strategy

The Unexpected Pause

I didn't plan to stop. But life real, gritty, tender life made that decision for me.

Post-Surgery Reality

After ileostomy surgery, I entered a season I hadn't rehearsed for. My body was healing... and hurting. My mind was racing... and grieving.

Wisdom in Waiting

Everything slowed, but the pressure to *keep up* didn't. And yet I chose to press pause. Not because I was weak. But because I was wise enough to listen.

The Reality of Recovery

1

The Unpredictable Timeline

They tell you 3 to 6 months. But healing doesn't come with a timer. No colon. No balance. No real appetite. No stability just bags that burst, blockages that punish you for forgetting to chew.

2

The Physical Struggle

My food became beige. My energy, borrowed. My grief, unspoken.

3

The Emotional Weight

The first Christmas without my mother. The first without my grandmother. My home reflected my energy disarray I could not fix. And my son, too young for words but not too young for struggle, needed more than I could give.

4

The Heavy Truth

It wasn't just hard. It was heavy.

The Mindset Shift

Old Patterns

Still, I tried to create. On my phone, from the bed, with half-closed eyes. Productivity had always been my coping mechanism.

The Realization

But what I didn't realize was: I was producing without permission. I hadn't given myself permission to rest.

The Truth

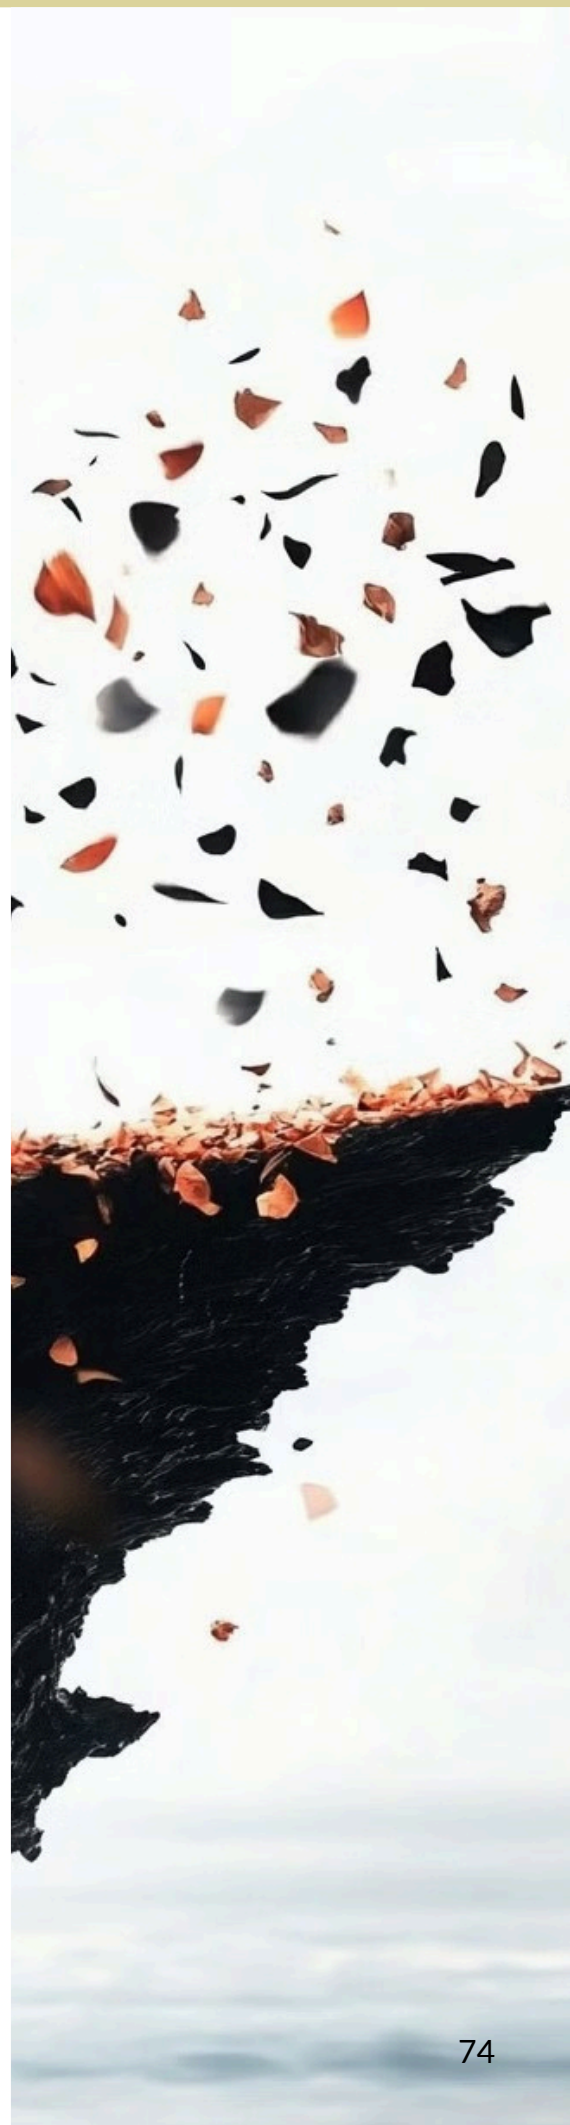

And when the body doesn't feel safe to rest, it doesn't heal.

The Decision

So I made a decision. A powerful one. I sat the quarter out. Not as failure as *strategy*.

I made Q1 the season of planning, of organizing for a better return. A return on my own terms.

What I Let Go Of

Witnessing Others' Success

In that silence, I saw others shine. People I had once stood beside were now being recognized. And I thought *that could have been me.*

Facing the Grief

The grief of that ran deep. But I couldn't afford to chase. Not if it cost me my health. Not if I had to sacrifice my breath to be seen.

Choosing Growth

So I let it go. I stopped reaching toward things that demanded I break myself open. And instead, I planted roots.

Quietly. Gently.
Intentionally.

What I Created Anyway

Visionary AI Creatives Command Centre

I created the **Visionary AI Creatives Command Centre** a Notion beast that helps me organize both business and brain.

Shay's EmpowerHER Coach

I built **Shay's EmpowerHER Coach** a custom GPT that reflects everything I needed to hear.

Soft Tools

I made guides, screensavers, soft tools that didn't rush but *re-centered*.

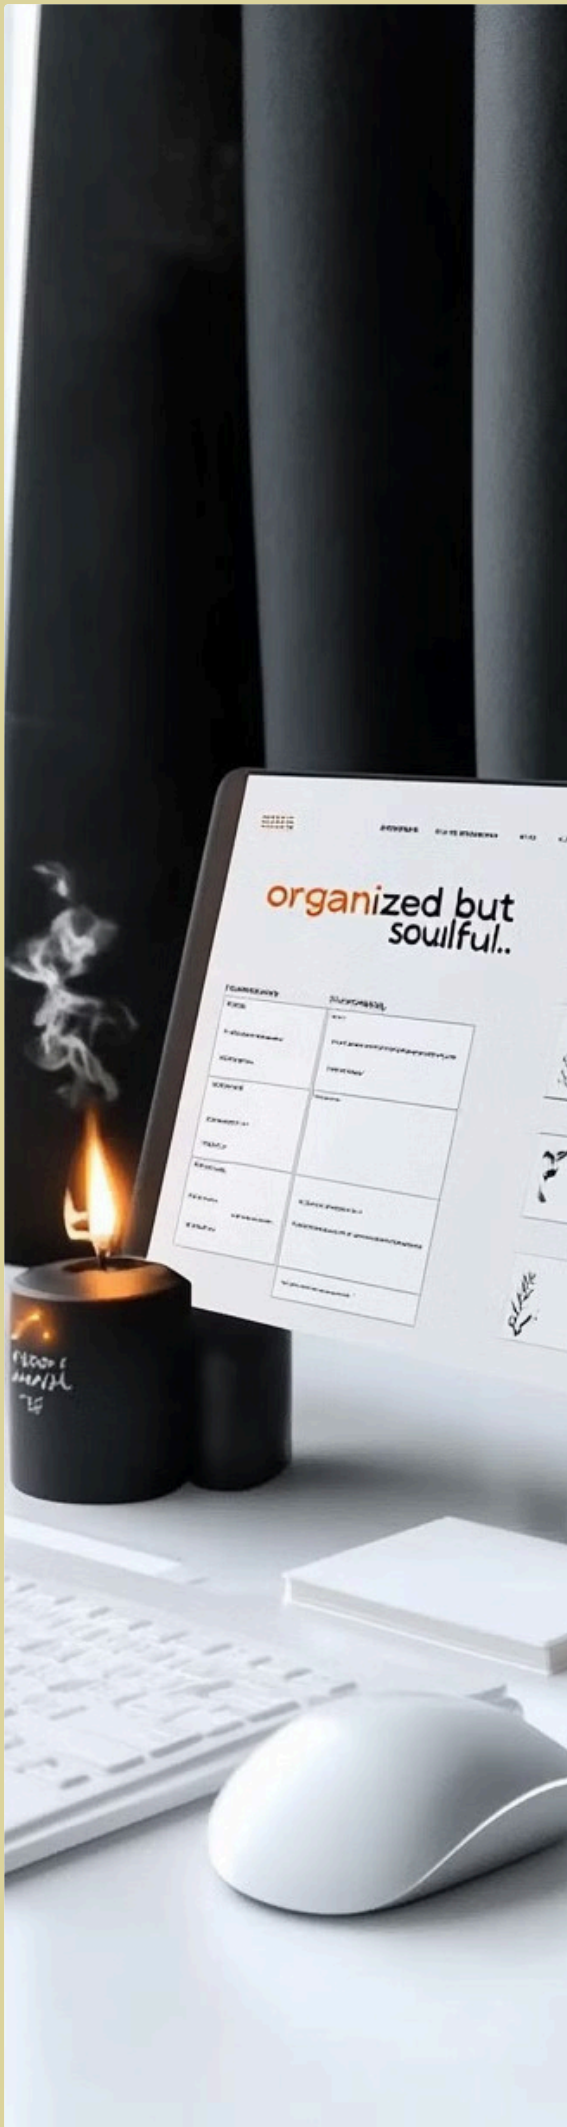

Creative Outlets

I used Notion for planning, journaling, creating. I used GPT to talk things through even when no one else was listening. I even used MidJourney on my phone, just to feel creative again.

I wasn't sitting still. I was becoming still. There's a difference.

What Feels Different Now

Self-Acceptance

I no longer punish myself for moving between projects.

Clear Vision

I no longer sit down and ask "what next?" with panic.

Visual Organization

Now, I see everything. Laid out. Visual. One tab for each idea. One system for my soft return.

Mental Harmony

Both sides of my brain are working in harmony. I feel clear. I feel capable. I feel... *calm*.

That's new.

What I'm Rising Into

Twitch Streaming

I'll be streaming on Twitch co-working in real time, soft accountability style..

Digital Creation

I'll be creating more digital products and teaching in my own rhythm.

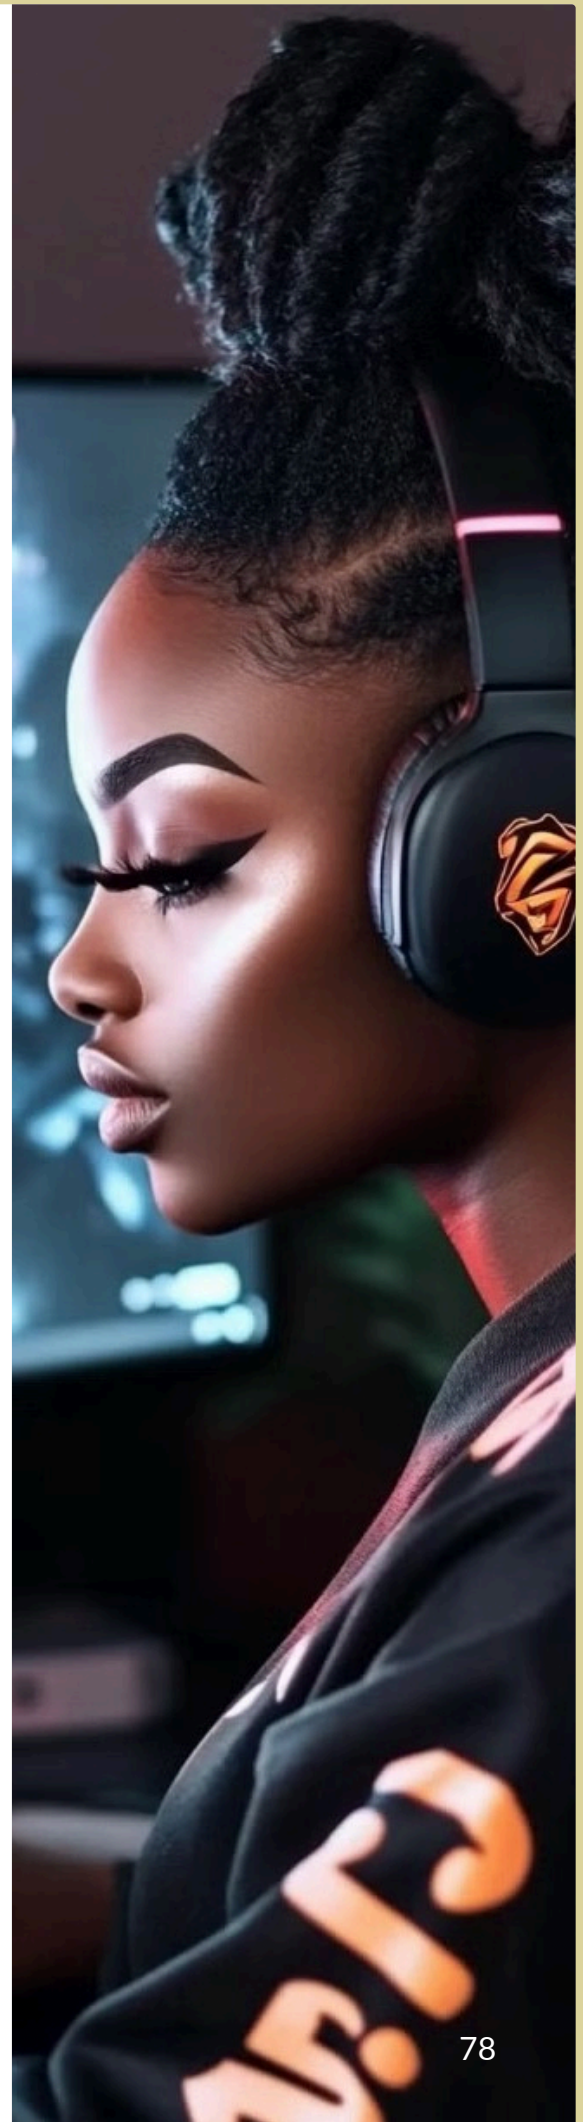

Authentic Presence

I'll be showing up fully, creatively, and without apology.

Q2 is not a sprint it's a vibe. And I'm entering it fully, as me. Gaming, creating, healing, building.

There's space for all of it.

And I don't have to choose one lane; I *am* the lane.

What I Want You to Know

Your pace is valid

You don't have to move fast to be valid.

Your impact matters

You don't have to post daily to be impactful.

Your growth continues

You don't have to grind to rise.

Your reset season is still part of your growth. Your silence is not stagnation. Your softness is not weakness.

Planning is a form of power. And grace is a strategy, too.

My Wish for You

1

Breathe

I hope this edition helps
you breathe.

2

Check In

I hope it reminds you to
check in with your body.

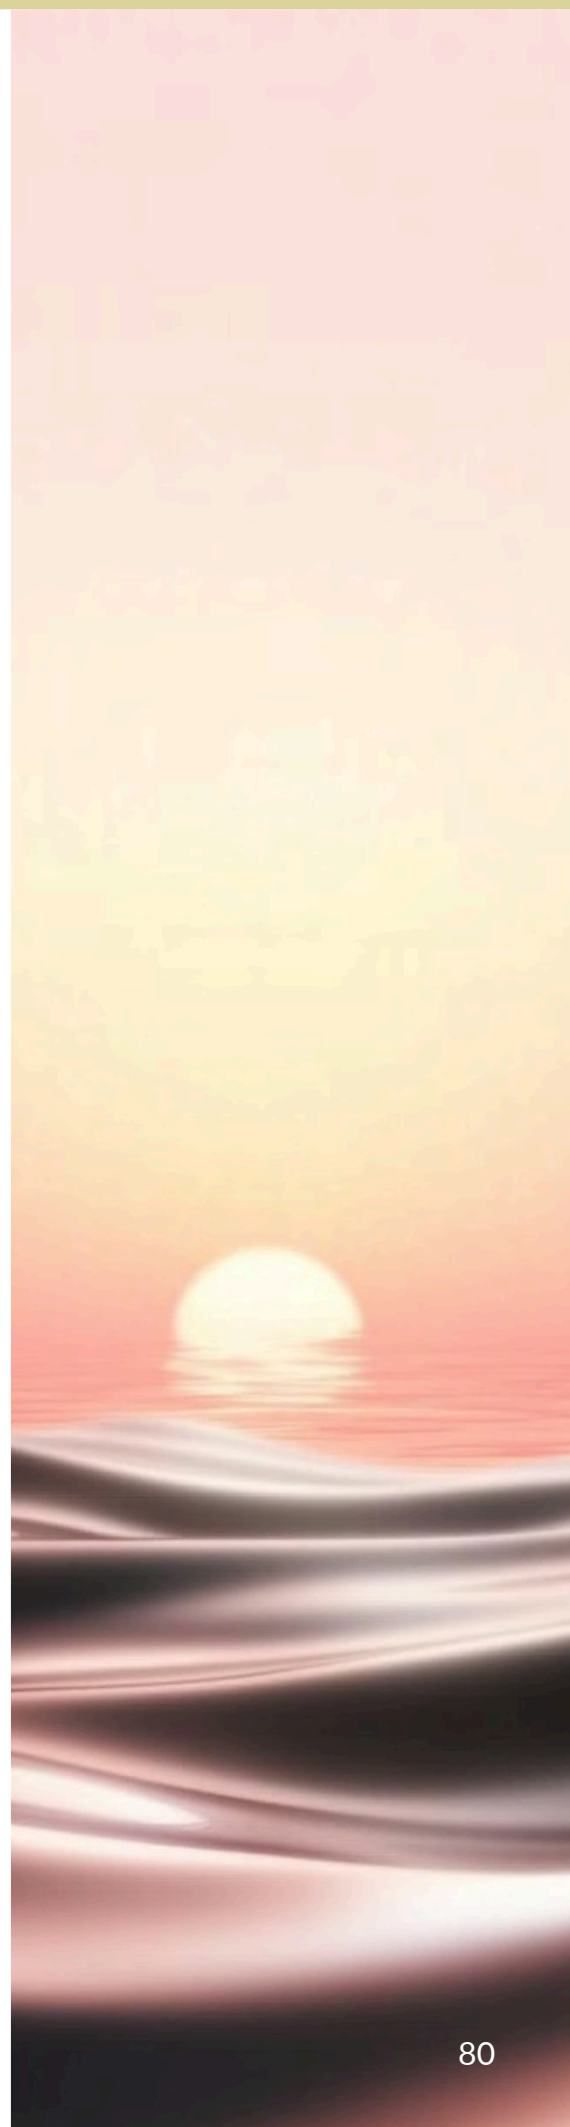

3

Build

I hope it helps you build softer
systems that support your soul.

But most of all, I hope it inspires you to stop waiting for
permission.

Reset when you need to. Rise when you're ready. And
know this: your journey doesn't have to look like anyone
else's to be divine.

Thank You for Reading

This was more than a reset. It was a remembrance of who I am and who I'm becoming.

If this story moved you, supported you, or inspired your own pause-to-power moment, you can support my work.

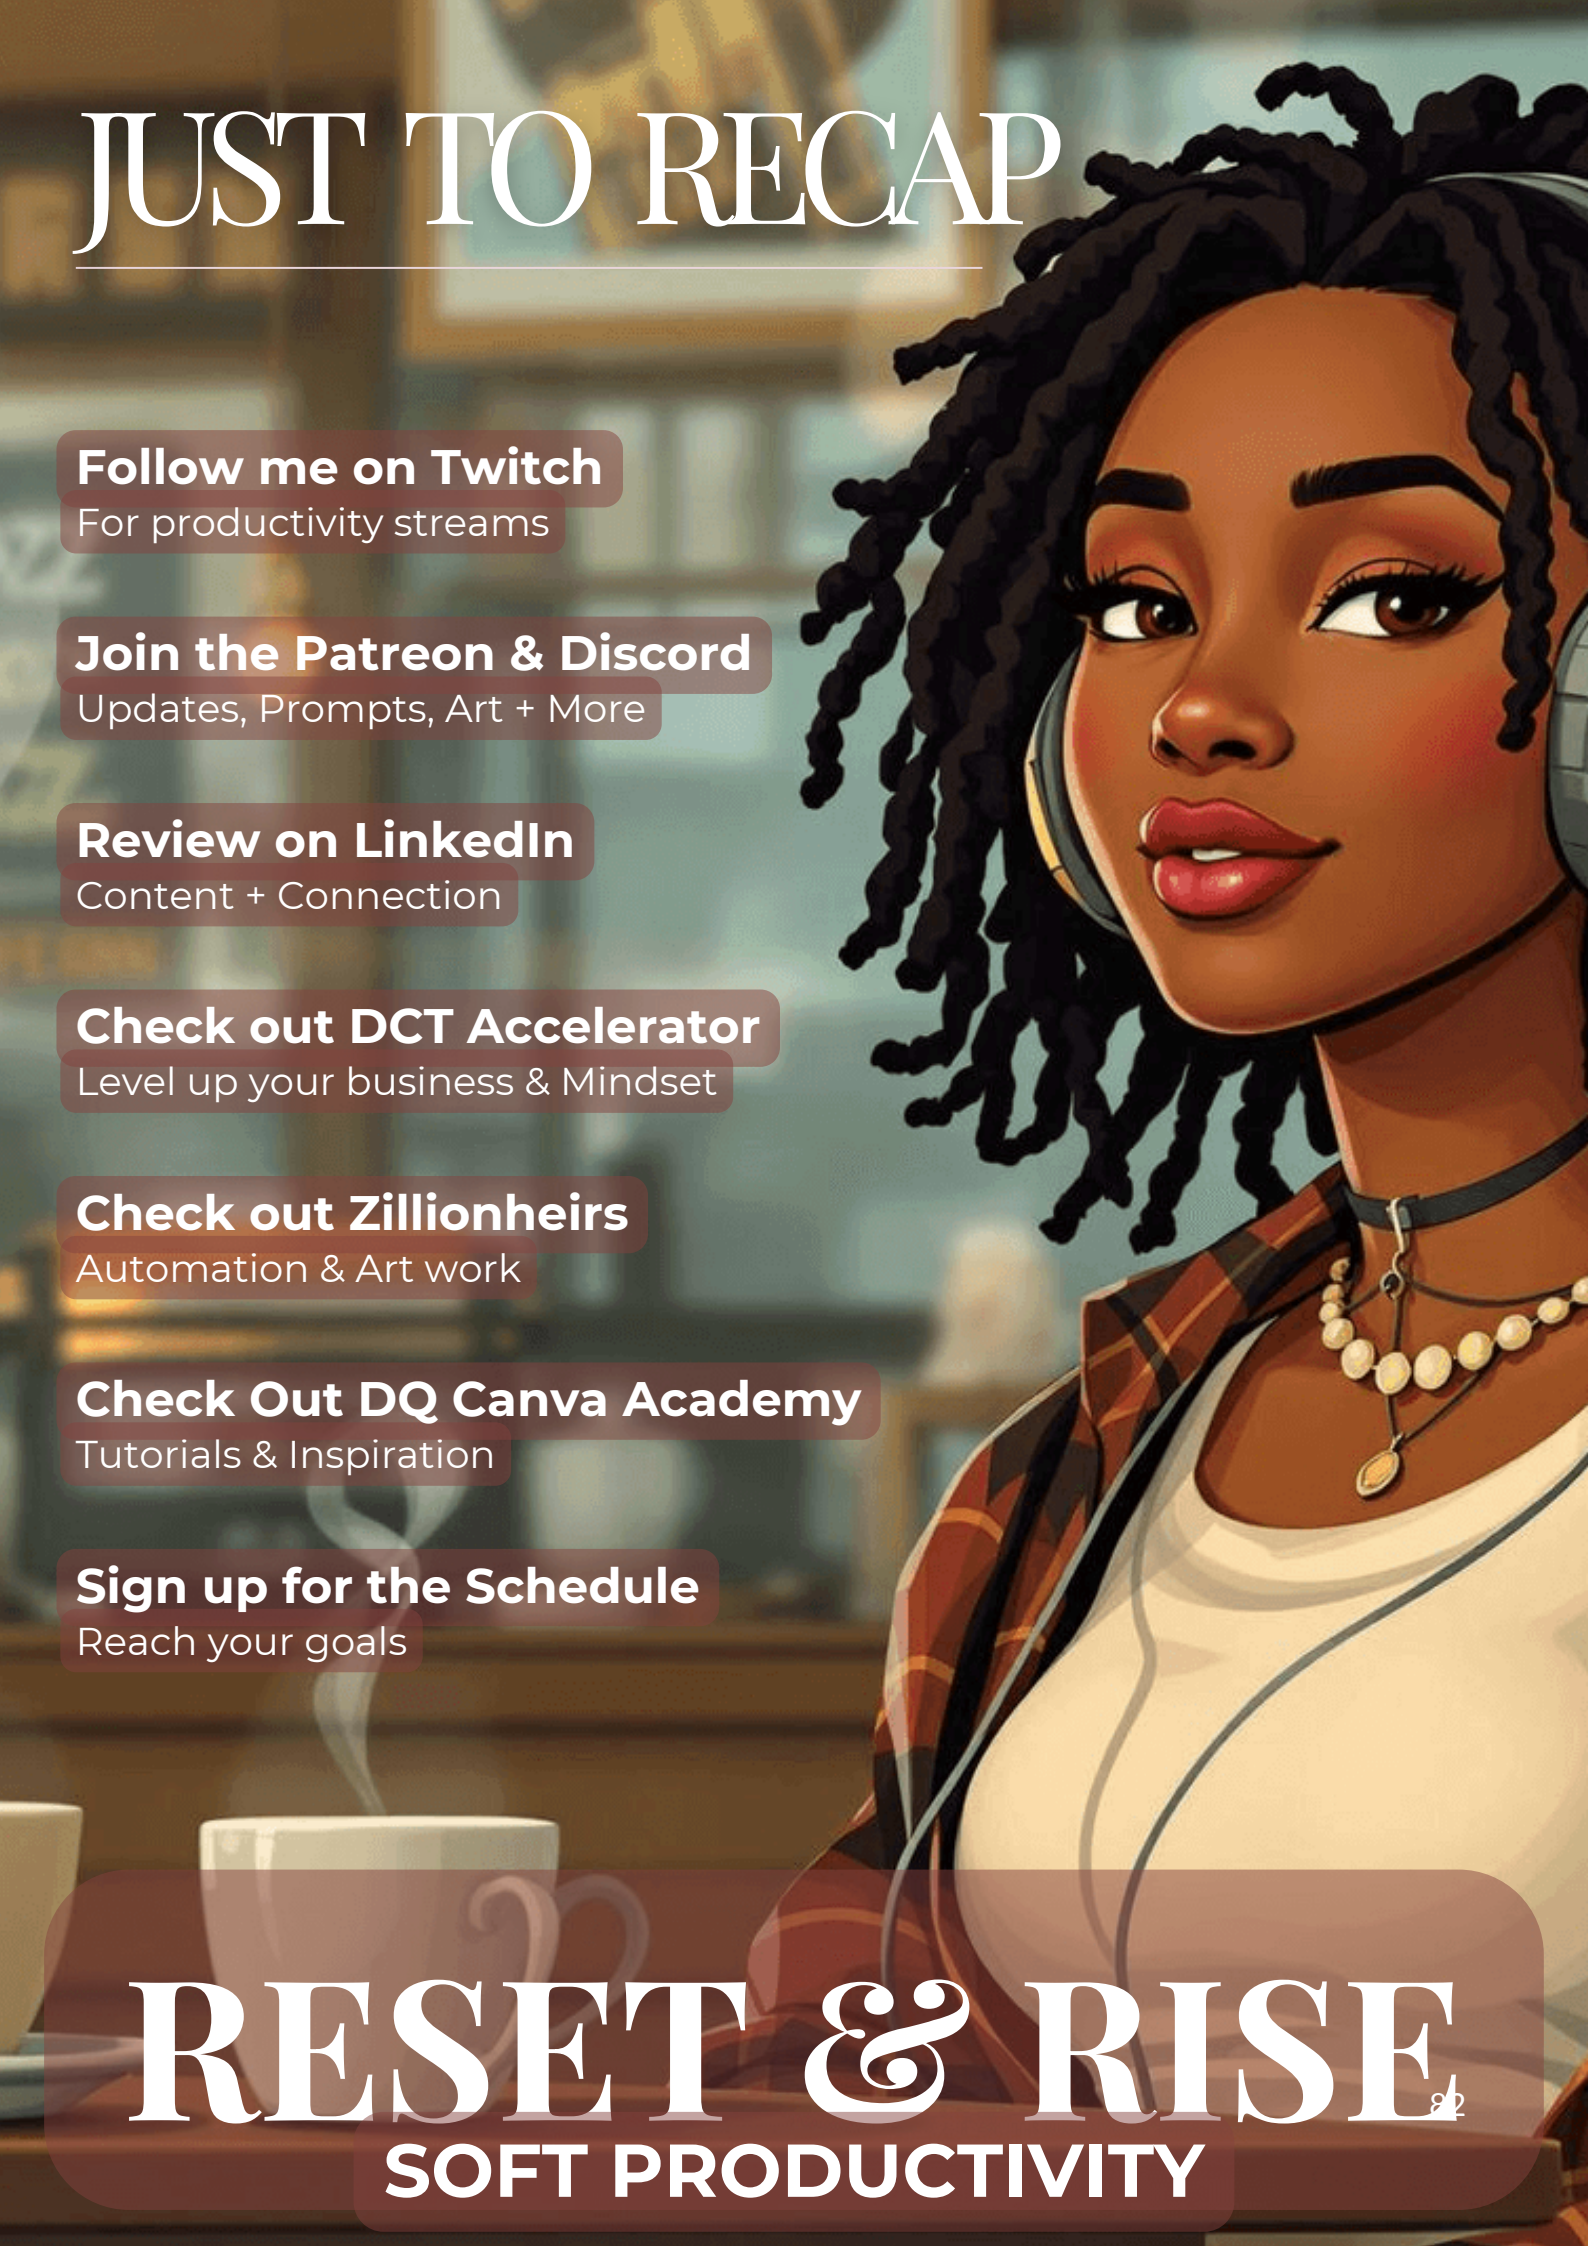

Connect & Support

buymeacoffee.com/justvisionary

Your support helps me keep creating healing-centred resources, tools, and art for visionaries like you.

JUST TO RECAP

A stylized illustration of a Black woman with dark dreadlocks, wearing a white tank top, a red and black plaid shirt, and a headset. She is looking slightly to the right with a gentle smile. In the foreground, there is a white coffee cup with steam rising from it. The background is a blurred indoor setting with warm lighting.
